

Billing

By the Account Activation Date of each month, we shall deliver, via e-mail or post, an invoice in accordance with the applicable Service Fees for services to be rendered in the forthcoming month. When an invoice is delivered to the client, payment shall be remitted to us by no later than the specified payment due date. We shall be entitled to immediately terminate this agreement for client's failure to make timely payments. You will be provided with an invoice on a monthly basis. We do not record or store customer credit/debit card data but you are able to set up recurring billing through our payment partners (currently PayPal) to allow us to take payment for invoices as they become due. It is your responsibility to ensure that you have sufficient funds to cover any transactions. Failure to make payment will result in overdue notices being submitted to you and will be given 3 days before account suspension. Accounts suspended for nonpayment are liable for termination without notice. (Typically 30 days after suspension) Please note that we accept payment by credit/debit card or PayPal only. Other payment methods such as cheque are not accepted as a method of payment.

Server Abuse

Any attempt to undermine or cause harm to a server or customer of DCT Host is strictly prohibited. As our customer you are responsible for all your accounts. Should you violate the Terms of Services outlined within, your account will be cancelled without chance of refund.

Refusal of Service

We reserve the right to refuse, cancel or suspend service, at our sole discretion. All sub-networks, distributive hosting sites and dedicated servers of DCT Host must adhere to the above policies, with the exception of system resources in respect to dedicated servers.

Free domain name

We cover the cost of one .uk or .com domain name with every plan that states a free domain. This domain is free for the life of the service. If you opt for a domain which is not a .co.uk, .net, .org .com , this may not be included in the price and could be charged for separately.

Money back guarantee and refund policy

We offer a 30 day money back guarantee. Refunds: If you have agreed and paid for an annual Service, we shall not be obliged to refund any pro rated payments if you cancel during the

annual
term.

Please note that we reserve the right not to refund any fees incurred by us in the registration of 'free' domains we have provided as part of the account.

Within our 30 day refund guarantee, you are eligible to request a refund on your service and an appropriate refund will be assessed based on the product usage and reason for termination. This refund will only be granted if an appropriate reason is given and if the problem(s) occurring is one our support team is unable to resolve. If your refund request is granted, you will have 24(twenty-four) hours to remove your files from our servers. After this time, the service will be terminated.

Cancellation and Refunds

If you no longer wish to continue with your hosting, please submit a cancellation at least 7 days before your services are due to be renewed. Your account will only be deemed as terminated once all outstanding balances have been paid in full. Domains will only be considered for transfer once all balances have been settled, we will not charge you for transferring a domain(s) away to another registrar's tag. The customer acknowledges that, termination of the agreement for any reason will result in us ceasing to provide the applicable services, with the consequences that flow from such cessation, including (but not limited to), deletion of data e.g. hosting account(s) and mailboxes.

We DO NOT refund partial monthly fees to accounts.

We do not fund fees incurred in the purchase of domain names where the grace period has expired. This is 5 days for non-UK domains and 10 days for UK domains.

Data Backups

We take backups of all data related to shared hosting plans(and other plans if you have purchased it as an add-on). However, it is your responsibility to ensure that your own data is backed-up regularly to your own computer or another service via appropriate methods. We will

not be held responsible or liable for any data that cannot be retrieved in the event of deletion, failed software installations, account termination, hardware failures, staff or user error and other events which may cause data loss.

Bandwidth/Disk Space Usage

We operate an 'unlimited' service, meaning we do not actively limit your account on disk space or

bandwidth. However, this is subject to fair use and any customer using an amount of monthly bandwidth or disk space deemed excessive in comparison to the average usage by other customers on our platform may, at our discretion, be advised to upgrade to a bespoke solution and billed accordingly.

We provision very large disks for our shared platforms, but no physical or virtual server can have an "unlimited" disk size due to limitations in both hardware and software. We will not let this hinder your usage, but it will mean that if you are operating a large account we may require that your account is moved to a server where it can be more easily accommodated without affecting other customers, or that your account is split over several shared servers. We would not charge for doing so and would always provide the information and tools necessary for you to operate your service. We reserve the right to do this at our discretion. However, refusal to co-operate with an account move request will result in account suspension and/or termination as we must ultimately ensure platform stability and service delivery at all times.

Spam Policy

Using our services for spamming is disallowed. This includes using our services to send out unsolicited e-mail and bulk emails. The selling of email lists will also be treated as spam. Any user found sending out spam may have their account terminated without notice. Any accounts taking actions which result in our IP being blacklisted will be immediately suspended or terminated with or without notice. We reserve the right to change or disable certain components on your hosting that does not comply with our policies. If your actions result in DCT Host having its IP blacklisted, your account will be charged for blacklist removal. This fee is at our discretion.

Migration Assistance

If you are moving to us from another cPanel provider, we can assist with the migration by restoring any cPanel backups you upload to us via FTP, or by accessing your old providers platform, provided you supply us with permission to do so and the relevant details to do so. Any migrations from non-cPanel providers will not be performed by us and must be done by you.

Customer Support

All support requests must be raised through the tickets system via our website or via skype if your current plan enables you to Skype Support. We can also provide support via telephone and e-mail if required but all requests must first be initiated through a support ticket. This helps us deal with your query more effectively and provides a clear history of all correspondence. Please note that we provide support to our direct customers only. We will not provide support via any means to your resold clients or any third-party not holding a direct account with us under any circumstances. It is your responsibility to cater for the support needs of your customers. In the event there is a hosting-related issue that you are unable to resolve, you are required to communicate this to us in detail via a support ticket and we will investigate and respond to you accordingly so you can inform your customer.

You agree to indemnify, defend and hold DCT Host and its affiliates, directors, officers, employees and agents harmless from and against any liabilities, losses, damages or costs, including reasonable attorneys' fees, resulting from any third-party claim, action, dispute or demand related to your use of the Services, your violation of any of the provisions of this Agreement or from your placement or transmission of any materials or content onto DCT Host servers. We strive to have a high amount of uptime, however any outages will result in an explanation from us, and our promise that we'll work hard to ensure you're back online soon. DCT Host takes no responsibility for any downtime caused by the client themselves, however in most cases we will work with you to get your site back online.

Please note that from time to time, it will be necessary for us to perform essential maintenance or upgrades to our infrastructure. Where possible, such upgrades will be carried out overnight in the UK to minimise impact on customers.

Downtime incurred as a result of planned and notified maintenance will not be included in

our
downtime statistics.
